

Here's documentation of a bug encountered when trying to change my pseudonym for a specific conference...

Changed pseud globally to what you see here.

The screenshot shows a forum interface for a category named "Media". On the left, there are navigation links: "See all New", "Create topic", "Mark all as if seen", and "Remove from My List". In the center, there is a form to change the pseudonym. The current pseudonym is "Everything changes; everything is connected; pay" and a "Submit" button with a question mark is next to it. Below the form is a filter bar with buttons for "Recent", "All", "Forgotten", and "Retired". To the right of the filter bar, it says "Total New Topics: 1". Below the filter bar is a table of topics:

Num	Topic Title	Last Post	New	Total
<input type="checkbox"/> 3249 <small>∞</small>	New Alternatives to Twitter: BlueSky, Counter Social, etc.	04/08/2025	3	1155
<input type="checkbox"/> 3137 <small>∞</small>	Substack: The New, New Medium	04/08/2025	0	348
<input type="checkbox"/> 3402	Media Coverage of Trump 2.0	04/08/2025	0	540
<input type="checkbox"/> 3100	Media Coverage of Trump 2.0	04/08/2025	0	540

Attempting to change as follows:

This screenshot shows the same forum page as above, but the pseudonym in the form has been changed to "Media CoHost". The "Submit" button is still present. The rest of the page, including the filter bar and the table of topics, remains the same.

After I click submit, it shows "Pseudonym changed."

However when I go to post, it shows my full name, not the pseud:
